

MANVINDER ARORA

TRADER & USER OPERATIONS

India (UTC+5:30) | [Email](#) | [X](#) | [LinkedIn](#) | [Portfolio](#)

Crypto-native trader and user operations professional with five years between users, community, growth and DeFi products. I understand wallets, liquidity, execution and perp venues from actual use, then turn that context into better onboarding, support, retention and product feedback.

150K+ audience scaled	50K+ Discord managed	2,000+ users activated	\$100M+ campaign volume	~\$290K LP capital onboarded

WHAT I CAN OWN

Trader onboarding | DeFi product support | Liquidity context | Execution and venue research | Retention | Voice of trader

EXPERIENCE

FusionX Finance | Marketing & BD Head Jul 2024 - Mar 2026

- Coordinated product launches, KOLs, partners and trader communities across FusionX, SummitX and CobaltX.
- Supported CobaltX campaigns tied to more than \$100M in 30-day trading volume and helped scale SummitX to 150K+ followers.
- Maintained direct feedback loops with traders, whales and communities so product and launch teams had useful operating context.

Timeswap | Marketing & Community Head Jul 2021 - Jun 2024

- Helped users understand lending, borrowing and liquidity flows through support, education, AMAs and community operations.
- Personally onboarded repeat liquidity providers with about \$290K in starting capital and contributed to roughly 50% TVL growth.
- Managed a 50K+ Discord and helped activate 2,000+ users in one month while staying close to product questions and liquidity friction.

Independent | Trader, Writer & AI Builder 2021 - Present

- Actively use wallets, DeFi protocols and perp venues including Hyperliquid, Lighter, Variational, Nado and Aster.
- Compare products through execution, liquidity, fees, funding, incentives and the full user journey; write product and market research from that perspective.
- Built a personal crypto trading dashboard that records trade theses, market context, position management and P&L; reasoning.

SELECTED WORK
