

MANVINDER ARORA

CRYPTO MARKETS, RESEARCH & TECHNICAL WRITING OPERATOR

India (UTC+5:30) | mani.arora03@gmail.com | x.com/0xgoodie | [Substack](#) | [AI trading dashboard](#)

PROFILE

Crypto-native markets and product operator with five years of experience across DeFi research, technical writing, community operations and active trading. Skilled at turning fast-moving or unfamiliar topics into clear, concise user-facing language; reviewing instructions for ambiguity and edge cases; and identifying the events and narratives that matter to traders. Strong first-principles thinker with daily exposure to onchain markets and trader UX.

ROLE-RELEVANT STRENGTHS

CLEAR RULES

Concise FAQs, campaign instructions, product explainers and launch communication

EDGE CASES

Issue triage, eligibility disputes, product ambiguity and user-confusion prevention

MARKET SIGNAL

Daily tracking of narratives, catalysts, leverage, liquidity and trader attention

RAPID RESEARCH

Quickly learns unfamiliar products and explains them from first principles

EXPERIENCE

FusionX Finance | Marketing & BD Head *Jul 2024 - Mar 2026*

- Drafted and reviewed launch messaging, campaign instructions, announcements and product guidance across EVM and SVM products.
- Collected recurring user questions, UX friction and incident reports, then documented the exact context needed for product and ecosystem teams to act.
- Supported CobaltX campaigns that contributed to more than \$100M in 30-day volume while keeping communication accurate during fast-moving launches.

Timeswap | Marketing & Community Head *Jul 2021 - Jun 2024*

- Wrote product explainers, FAQs and market-specific content that made fixed-term, oracle-less lending mechanics understandable to users.
- Managed daily communication for a 50,000+ member Discord, resolving questions around wallets, pool expiry, eligibility, yields and onchain transactions.
- Handled campaign and product edge cases across Galxe, QuestN and Phi initiatives that added 2,000+ active users in one month.
- Explained complex scenarios including stablecoin depegs, transition prices, collateral outcomes and maturity rules using clear user-facing language.

Independent | DeFi Trader, Researcher & Writer *2021 - Present*

- Actively researches crypto, equities, macro catalysts and perp DEX markets; filters noisy information into timely, structured market views.
- Daily user of Hyperliquid, Lighter, Variational, Nado and Aster, with hands-on understanding of listings, execution, leverage, liquidity, incentives and trader behaviour.

SELECTED WRITING & PRODUCT WORK

Crypto did not become TradFi. TradFi became crypto - Market reflexivity, leverage, narratives and forced selling across global markets. [View](#)

The casino should always be open - Tokenized assets, stock perps and the convergence toward always-on markets. [View](#)

Learnings on Timeswap v2 - First-principles explanation of fixed-term lending, transition prices and user outcomes. [View](#)

Crypto AI Agent Dashboard - AI-assisted market-review interface structured around setups, invalidation and no-trade conditions. [View](#)

SKILLS

Markets: event discovery, market narratives, catalysts, trader attention, liquidity, leverage, resolution-source thinking | **Writing:** technical writing, concise rules, FAQs, product explainers, editing, ambiguity review | **Research:** rapid topic learning, source verification, edge-case analysis, first-principles reasoning | **Web3:** DeFi lending, prediction-market concepts, perps, wallets, block explorers, EVM/SVM, stablecoins
